About the Exercise

- Exercise Titan Storm is part of a wider national exercise comprising over 5000 troops with associated vehicles and airframes from the 3rd UK Division.
 - The Minley and Ceasers Camp areas will be busier than usual, and involve large vehicles and engineering plant, most notably between the 10 and 22 November.
 - Whilst the exercise has been designed to balance operational needs against disturbance to the local community, there will be some periods of heightened use.
 - In addition to this there will be normal, routine tactical activity conducted on the field training areas including blank firing, pyrotechnics, and noise simulation. These will all be conducted in line with the standing area constraints.
